OUR PARST OF SEPTEMBER ISSUE. On the first of September next we will publish our annual trade review. It will be in every respect replete with facts, figures and logical comment and deductions, and demanding more than the usual space of our regular issues, will compel the issuance of a mammoth spect. Already orders are coming in, and we anticipa'e as great a demand as | day. that which last year assured the APPEAL unquestioned precedence over all our cotemporaries. We advise advertisers of the fact in order that they may prepare their notices and advertisements for it, and avail themselves of its immease circulation among the planters who make Memphis their market. Cotton, grocery and commission, as well as dry goods and boot and shoe merchants, will do well to make a note of it.

RELATIONS OF RACES AND PATE OF

PARTIES. If recent apprehended sensations and real collisions between whites and negroes came of the civil rights bill and of the sudder resulting transformation of parties, it is no fault of the white people. They had sought, persistently, ever since negroes were made voters, to disrupt the negro party. Greeley was supported and preferred by the south with the purpose of seducing negroes from allegiance to their Radical leaders and of dissolving parties distinguished solely by race features. Under such circomstances whites failed or refused to vote, and, everywhere, negroes voting as one man, elevated men like Barbour Lewis to office. Now that whites cooberate, as negroes have ever done, we are to be subjected to the tender mercies reproduced reconstruction. Such

is the threat made by certain absurd Radical journals. On the other hand, sensible northern Republicans begin to discover the unutterable folly of that whole scheme of legislation evolved by the conflict between President Johnson and Thaddens Stevens, and the only remedy for evils that afflict the south consists, we are told, either in retrogressive federal legislation, or in the adoption of Brownlow's proposition to colonize the blacks. Since these colored people are needful in the cultivation of cotton, that Lowell, Leeds, and Manchester may be enriched, and southem planters have no substitute for ne- of gro industry, it may be found advisable to suffer events to shape themselves; and when the Radical adventurers are expelled from office, and thus from the south, there may no longer be a necessity for parties distinguished simply by olor, and these parties will naturally become extinct. Whenever the negroes' white masters can no longer gain offices by means of negro votes, the negroes, left free to act as interest and common sense dictate, will vote without reference to the decrees of secret societies, organized and managed by and fire brigade have been sent to fight extra winter, \$3.000 25; extra winter, \$4.200 and fire-brigade have been sent to fight extra winter, \$3.000 25; smerate white adventurers, and when there lose offices they leave the country. They will soon abandon Memphis, and then there will be no more conflicts of races naturally identified in fortune and in interests. The President is wiser Let events shape themselves, and the try. They will soon abandon Memphis, of races naturally identified in fortune | Serids. Let events shape themselves, and the last possible evils will befall the country, and the greatest evils which sectional and partisan legislation in congress could only aggravate, would be gress could only aggravate, would be ephemeral and trifling, as compared with those involved in the remission of whites and blacks to the tender mercies of federal proconsuls appointed to rob, plunder and destroy. Each white man of the south is personally and pecumisrily interested in the well being of each negro. Therefore the negro pubhe schools of Memphls; but these white people have learned to their cost the unutterable folly of submitting to negrocreated governments. In this the interests of northern communities are identical with our own. Let the south prosper as never before since 1850; the negro will be elevated in fortune and its intelligence, and Lowell may clothe the nations more cheaply than to-day. It is for the negro's good that the whites should govern the south, and the civil rights bill made this result easy of at-

THE success of parties in Tennessee, after the civil rigids question passes from to the front. public view, will depend upon the economical practices of the legislature. Its instead of committing rape on a young public burdens, the number of offices, and in relieving the people of many sincurrent created to reward favorities of daughties on his lucky stars at the mild sentences or his jury. power in 1965 and 1867. Offices remain the same in number, and only their incumbents have been changed.

In Texas, Alabama, and other southern States, whose cities have been terribly plundered by ignorance and corruption in office, it is proposed to amend all municipal charters so that in local elections none but property-holders shall vote, though none shall be excluded

Ir is to be hoped that Clayton, Morton and other Radical plotters at the springs in Arkaness will all get into "hot waier." It would be well for the country If the advantages of "aquation" were tested even now. Morton is not supposed to approve "cremation."

The establishment of Beecher's guilt or innocence is secondary in importance to the infinite detriment done the cause of Christ by the horrible scandals set affect by the deprayed participants and witness in this unhallowed investigawitnesses in this unhallowed investiga- and injuring her so badly that she can-

An article in a New York paper to the effect that the Spanish government, in return for securing the recognition of the republic by European powers, has agreed to code the Island of Porto Rico to Germany, occasioned comment in all quarters; but there is no scurce in Washquarters; but there is no source in Washington at present from which to obtain a flicial information, either confirming or contradicting it. All that can now be said with certainty is that the executive department is not inattentive to this matter; and both Caleb Cushing, at Madrid, and Mr. Davis, at Berlin, have been instructed on the subject, and will not fall at the proper time to repeat their government's opposition, as heretofore privately and officially expressed by President Grant, and also through the secretary of state, in maintenance of the Monroe doctrine.
